

WILLIAM FEVRE

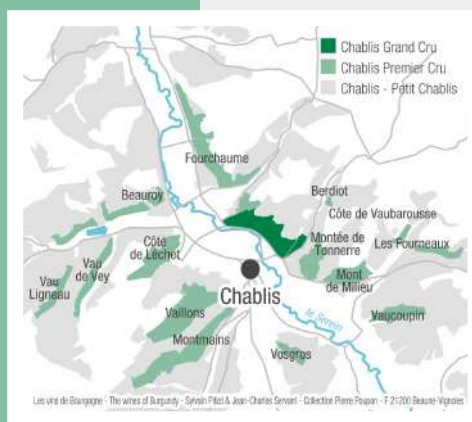

GRANDS VINS DE CHABLIS

CHABLIS LA MALADIÈRE

VINEYARD

Combining lovely fruitiness with an attractive freshness and characteristic minerality, Chablis is a wine region with global renown. Domaine William Fèvre's vineyards sit on Kimmeridgian subsoil and enjoy ideal exposures for the production of a very fine wine.

- **GRAPE VARIETY:** 100% Chardonnay
- **SOIL OF CHABLIS:** Chalky clay, marl, and marly limestone from the Kimmeridgian era (the upper Jurassic geological period, 160-140 million years ago). Located on either side of the Serein River.
- **SUBSOIL OF CHABLIS:** Rich in minerals and oyster fossils, giving the mineral character typical of the wines of Chablis.
- **SURFACE AND LOCALISATION OF THE APPELLATION:** 3 400 hectares stretching from the extension of the Premiers Crus to the neighbouring communes.

TASTING

- **TASTING NOTE:** Fleshy and elegant bouquet revealing citrus, white fruits and flowers aromas. The mouth is fresh, supple underscored by mineral.
- **FOOD/WINE PAIRING:** Fish dishes, grilled or in a light sauce; various seafood, oysters and sushis.
- **THE PERFECT PAIRING:** Salmon tartare.
- **SERVING TEMPERATURE:** 12°C to 14°C

KNOW-HOW

- **HARVEST:** Manual
- **VINIFICATION:** Use of the principle of gravity so as to avoid all pumping, which could harm the quality of the wine. Brief (1½-2 hours) pneumatic pressing to obtain a gentle separation of the solid and liquid parts of the grape. Very light static settling of the juice to preserve enough fine lees so that the alcoholic and malolactic fermentations can occur naturally. The must is run in small stainless steel vats.
- **MATURING:** 8 to 10 months in stainless steel vats to preserve freshness.
